

Dear Supplier,

McDonald's Development Italy LLC. has decided to implement an **e-Procurement Portal** in order to manage its procurement processes. The Platform is the chosen tool for communication and interaction between McDonald's and its Suppliers and Partners.

The Portal offers visibility of purchasing initiatives to the market, facilitating Supplier **candidacy** and **qualification**, and consolidating traditional transparency and purchasing process efficiency in the mutual interest of the parties.

In order to **access the Portal**, visit the website <https://mcdonalds-procurement.bravosolution.com> and fill in your company information in the Supplier Registration section.

The system will allow you to **propose your products/services** and respond to a **qualification questionnaire**.

Correct completion of the qualification process is a **necessary condition** for involvement in online events.

For further information, you can contact **+39 02.266.002.634**, from Monday to Friday, 9am to 6pm CET.

Best Regards

McDonald's Development Italy LLC
